

ARE YOU AND YOUR FAMILY READY TO HOST AN INTERNATIONAL STUDENT?

Make a new best friend for life and help a European student learn about our culture...

Hosting an overseas student is a wonderful way to bring another part of the world into your own home.

It provides your Australian family with the opportunity to observe and hear the story of a young person who is a long way from home and who is keen to experience life in Australia.

The fun, friendship and rewarding educational benefits of hosting an international exchange student make the experience unforgettable.

Your whole family will grow as you exchange ideas and compare lifestyles. Another way of life is learned and lasting friendships are formed in the process!

A host family in Australia provides room, board and a warm supportive home for the overseas teenager.

The international students pay for all school related expenses including; uniform, textbooks and subject resource charges, public transport to and from school, outings, excursions and all personal and incidental spending.

Nacel Australasia coordinators, as well as the teacher-chaperones liaise and work directly with your family, preparing you to receive an overseas student and providing 24/7 support throughout the stay.

Most host students and host families become friends for life – staying in touch with each other as they grow and travelling to see each other overseas, when they have the opportunity.

What are you waiting for? Talk to your parents or guardians and discuss the benefits of hosting a student this year. Take the opportunity to share our Australian culture with an international student, and make a friend for life.
