Canberra is known the nation over as the Political City and Canberrans are some of the most open, accepting, progressive people that populate this country. From our overwhelming vote in favour of Marriage Equality to our 100% Renewable Energy target for 2020, Canberrans are active, ambitious and unafraid of tackling the challenges of our time.

In 2019, ACT UP! Student Fringe will take on a theme for the first time:

TIME'S UP

Time's Up on what?? What is it that Generation Z has no time for anymore? What attitudes or practices of the past will you no longer accept? The clock is ticking and this generation will call time's up on whatever you feel compelled to address – this is your festival, your voice, your platform – you are putting the older generations on notice – let the count down begin!
