

MERICI COLLEGE GREEN TIP #1

Welcome to 2022!

Reducing waste to landfill is a key action that we can all take to reduce our environmental impact.

To go beyond our kerbside collection options, and to kickstart our focus on waste reduction this term, we are pleased to offer four options for collection here at Merici: Oral care waste, container lids, makeup packaging such as eyeshadow trays and mascara tubes, and disposable masks.

So start collecting now and watch this space - once the collection boxes arrive, we will let you know when and where to bring your separated collections. There is already a Terracycle zero waste collection box for used pens in the iC which you can use now.
